The CIP is a cluster of international scope that will bring together manufacturers, producers and marketers of products suitable for the sport of paddle. It is formed by a large majority of paddle companies that exercise an industrial or service activity within the countries of the European Community and have sufficient infrastructure and services in our European geographical area.

Among its main objectives is to act as a Lobby, representing and defending the professional and business interests of its members before all types of public and private organizations that are directly or indirectly related to the activity of this Association. In addition, it also wants to be a key player in promoting and encouraging the internationalization of padel, both at the level of practice and industry.

Babolat was founded in 1875 in Lyon, France, and is the oldest racquet sports company in the world. Babolat products include strings, shoes, balls, shuttlecocks, backpacks, apparel and accessories, all designed and developed to help players express their game. Day after day, we aim to transmit the energy of the game with a range of equipment perfectly adapted to the players' style, allowing them to practice and enjoy these disciplines with the best performance. For 145 years, Babolat has been the brand of choice for current and future tennis, padel and badminton champions.

Bullpadel was born in 1995 under the ambitious concerns of several Argentine and Spanish professionals and with a clear objective: to create the best equipment for the practice of padel. Aguirre y Cia takes over the brand, adapting it to the demands of the professional player, in addition to changing the logo image and systematizing the design and production processes. All these efforts are justly rewarded and the first collection marks a new stage, obtaining a great acceptance in the market.

Founded in 2003, and formed by a young team, our main goal is to meet every customer need both on and off the track. We work every day to provide the latest technology in fabrics and the most innovative materials, achieving the best quality in the market and be the main choice of our customers. We base our design on the habitual practice of Padel and the lifestyle of its followers, observing their movements on the court and their main needs.

We are driven by a great passion for the game: to play it, to improve it, to share it. And the game belongs to everyone. No matter where, at what level or how often you play. So we give every player access to the same precision-engineered, technically sophisticated sports products. Allowing you to get every drop of joy out of your game and make every match you play the best it can be. A brand with over 130 years of history, and more than 30 years in the padel market, Dunlop has constantly innovated to develop market-leading products for players worldwide, driven by our love of the game.

Endless® is a premium Padel & Tennis brand focused on textiles, rackets and accessories. We only work with the latest generation fabrics to give always the highest performance technical features. In addition, our products use LycraSport®, CoolMax®, PrimaLoft®, Supplex®, etc. certifications and labels. The entire manufacturing process, from the fabrics, the tailoring to the last label, is produced 100% in Spain, what makes us a more sustainable and ecological brand. Same as in clothes, our Rackets are handcrafted in Spain with the best raw materials from the USA and Italy.

HEAD introduced a tennis section to the company in 1968 and a year later introduced the first metal tennis racquet at the U.S. Open. Howard Head sold his company to AMF in 1969 and retired shortly thereafter. Upon retirement, he concentrated on his tennis game, which had improved little even with a metal racquet and numerous courses. He then developed the first large metal tennis racket and revolutionized a second sport. We work to bring the world of Padel closer to all levels, promoting this sport that combines action with fun and social interaction. Together with our WPT players we improve every day in the development of our products.

With more than 40 years of history, J'hayber has become one of the most recognized and remembered brands in Spain. Since 1972 it has been dedicated to the manufacture and marketing of sports, casual and safety footwear and has been a reference in its sector ever since. In 2008 Jhayber gave a boost to its technical collections by linking them to one of the most popular sports at that time, PADEL. We are padel specialists in rackets, shoes, garments and accesories. We are the most competitive padel courts manufacturers as well

JomaTM

Joma is a Spanish sportswear company located in the municipality of Portillo de Toledo, in the province of Toledo. Joma was created in 1964 and began manufacturing and distributing sports footwear and clothing. From 1968 onwards, the brand decided to concentrate on the sports and leisure footwear sector. After a few years of success, Joma specialized in soccer, and in 1992, 1994 and 1998 was the leader in soccer sales in the Spanish market.

Juan Periañez Cabrera, after a lifetime dedicated to tennis as a player and as president of the Dénia Tennis Club (for 24 years), in 1998 created the company JUBO TENNIS, SL specializing in the construction of tennis courts. In 1999 he built his first paddle tennis court and saw great potential in this sector, deciding to intensify efforts to improve the manufacture and installation of padel tennis courts nationwide.

All our padel rackets are unique and have been manufactured in-house by craftsmen who appreciate a job well done, know the industry and value the authenticity of the product. To ensure careful production down to the last detail, we manufacture no more than 30 padels a day, so that each and every one of them has been evaluated and approved by our experts. After a five-day maturation period, a team of athletes work with us to test each racket before it goes to market.

KELME

P A D E L

The Spanish brand KELME was born in the town of Elche (Alicante), in 1977, by the Quiles brothers. Throughout its long history, it has been a leading brand of sports equipment. The sponsorship of teams, such as the Kelme Cycling Team, has been one of the brand's hallmarks. It achieved great recognition as a sponsor by being the official "technical sponsor" of the Spanish team in the Barcelona '92 Olympics. All this, together with the constant effort of all its staff, catapulted the brand of the claw to the international market.

Kombat was born from the illusion of a group of paddle crazy people who wondered why not make available to everyone the professional paddle rackets at a fair price. Kombat is not only a paddle brand but also a movement that creates THE REAL PADEL REVOLUTION with a clear philosophy: THE REAL COST. Thus, Kombat is the only brand that offers high-end professional padel rackets, for all styles of play, at a single price for all its models. That's what we call THE REAL COST: no representatives, no abusive brand mark-ups, no middlemen: from the best factories in the world to the court.

Karbondesign is an independent company founded in 2014 and dedicated to the manual manufacture of padel rackets. Born from a small project, but with the illusion, affection and effort to find our place in a market of tough competition. Being manufacturers we can assure that the manufacturing process is very complex. For this, we use only high quality materials and a totally manual manufacturing process. It may seem an easy task but on the contrary, it is a very laborious work where almost all the procedure is done by hand, practically in a handmade work.

MEJORSET is a company dedicated exclusively to the development, manufacture, installation and maintenance of Paddle Tennis Courts. With extensive experience in sports construction our company specialized in 2002 in metal structures and glassware, in the world of Padel. We have our own structure (development, manufacturing and logistics in Alicante, from which no third parties intervene. Our team is leader in each of the processes for the construction, installation and maintenance of the courts, from engineers to specialized fitters in the world of Padel. All our budgets can be accompanied by a study and 3D plans.

OKATENT

We are Okatent and we are dedicated to the manufacture of multipurpose modular roofs. What does that consist of? They are prefabricated structures with metal profiles covered with a tensioned membrane that help to cover spaces quickly, easily and economically.

OSAKA * 世界

Osaka World was founded in 2011 with a commitment to fuse field hockey heritage with lifestyle. It is named after one of Japan's largest cities because of our great admiration for Japanese culture and its design ethic. We perceive the Japanese aesthetic as very minimalist, clean and functional. It is a design principle where less is more. Seeking design inspired by versatility, functionality and durability.

At Padelgest, we base our philosophy on three pillars: the search for the authentic, the passion for the small details and the respect for the things well done. This is our worldview expressed in each of our padel court models. Our courts are designed, manufactured, and developed in Barcelona using only the best and most respectful raw materials on the market. One of our secrets lies in the selection of the best steel and our manufacturing processes which are completely controlled.

In Marbella, padel evolved as a sport, although without major changes in terms of the rackets and the materials or technologies used in its construction. Until 1986. It was then that Prince presented its first padel collection, coinciding with the explosion of the sport in Argentina. Following the innovative spirit of the brand, which since 1976 had revolutionized tennis with new technologies, Prince is the brand that has contributed most of the technologies that have made padel the sport it is today, being a pioneer in the use of new materials.
